CHUM SAMANG – CAMBODIA

MASTER OF APPLIED FINANCE

'I had the option to choose from many universities in Australia, however, I chose to study at Western Sydney University. I am glad that I made the right choice, Western Sydney University is a modern and progressive University and is also one ranked in the top 2% in the world. In addition to offering high-tech facilities, the University provides its students with great career opportunities.

Currently, I am working as a casual Financial Analyst at PricewaterhouseCoopers (PwC), which I gained through the School of Business. I work mostly on superannuation and pension funds. I will be able to transfer this knowledge and experience from PwC to my home country and to develop Cambodia's financial system.'
